GSR Reports

Howdy Peeps.

We moved the GSM to Oct 22nd, we do not have much to more than was reported last month. Except for our Group Inventory which happened yesterday, so we do not have any feedback back from our facilitators. Nevertheless, it was clear that things stemming from the onset of Covid back in March of 2020 has not gotten any better with resentments running on both sides of the question. The good thing about the inventory was both sides were in the same room and able to talk about their feelings and issues. Afterwords, we had a gratitude meeting and those that stayed was able to make amends and return to gratitude.
